Editor-in-Chief: Małgorzata M. Jaworska

Faculty of Chemical and Process Engineering,
Warsaw University of Technology,
ul. Waryńskiego 1, 00-645 Warsaw, Poland
e-mail: malgorzata.jaworska@pw.edu.pl

International Editors:

R. Brzezinski; Faculty of Science, University of Sherbrooke, Canada
C. M. Caramella, University of Pavia, Italy
H. Kusaoka; Fukui University of Technology, Japan
H. Pospieszny; Institute of Plant Protection, Poland
S. Rossi, University of Pavia, Italy
G. A. F. Roberts; University of Nottingham, United Kingdom
S. Senel; Faculty of Pharmacy, Hacettepe University, Turkey
V. Varlamov; Russian Academy of Science, Russia

We would like to inform that the development and dissemination of the XXII volume of the journal "Progress on Chemistry and Application of Chitin and its Derivatives" (PCACD) is funded under contract 705/P-DUN/2017 from the resources of Ministry of Science and Higher Education allocated for activities which disseminate the science

CONTENT

| | |
|--|------------|
| D. Biniaś, W. Biniaś, A. Machnicka, J. Janicki, P. Haluszka Formation and properties of DBC/PLA microfibres | 5 |
| U. Filipkowska, T. Józwiak, P. Szymczyk, M. Kuczajowska-Zadrożna The use of active carbon immobilized on chitosan beads for RB5 and BV10 dye removal from aqueous solutions | 14 |
| A. Gozdecka, AE. Wiącek Behavior of TiO ₂ /chitosan dispersion as a function of solution pH | 27 |
| B. Grimling, J. Meler, M. Szcześniak, M. Kocoń, B. Karolewicz, A. Złocińska, A. Górniak The influence of dental formulation prepared with chitosan on the pharmaceutical availability of clotrimazole | 42 |
| T. Józwiak, U. Filipkowska, P. Szymczyk, M. Kuczajowska-Zadrożna, A. Mielcarek Removal of dyes from aqueous solutions by glauconite immobilized on chitosan hydrogel beads | 54 |
| M. Jurak, AE. Wiącek Wettability of hybrid chitosan/phospholipid coatings | 66 |
| EI. Kiprushkina, IA. Shestopalova, AM. Pekhotina, EE. Kuprina, OV. Nikitina Protective-stimulating properties of chitosan in the vegetation and storing tomatoes | 77 |
| KK. Kłosiński, MK. Girek, RA. Wach, R. Czechowska- Biskup, PT. Arkuszewski, PB. Szymański, Z. Pasieka Synthesis and potential cytotoxicity evaluation of carboxymethyl chitosan hydrogels | 82 |
| A. Kocemba, M. Mucha Chitosan/poly(vinyl alcohol) hydrogels as controlled drug delivery systems | 97 |
| M. Kuczajowska-Zadrożna, U. Filipkowska, T. Józwiak, P. Szymczyk The use of polysaccharides for Acid Red 18 anionic dye removal from aqueous solutions | 106 |

| | |
|---|------------|
| K. Lewandowska, G. Furtos Characterization of thin chitosan films for guided tissue regeneration purposes | 118 |
| K. Lewandowska, A. Sionkowska, S. Grabska, M. Michalska Characterisation of chitosan/hyaluronic acid blend films modified by collagen | 125 |
| K. Malolepsza-Jarmołowska Influence of pectin on the properties of hydrophilic powders containing a lactic acid-chitosan complex | 135 |
| K. Malolepsza-Jarmołowska The use of dextran in gynecological powders containing lactic acid complexed with chitosan | 143 |
| J. Meler, B. Grimling, M. Szcześniak, J. Pluta, P. Biernat The adsorption of simvastatin on chitosans in an in vitro pharmaceutical model | 151 |
| AY. Mironenko, AA. Sergeev, AE. Nazirov, SS. Voznesenskiy, SY. Bratskaya, AG. Mirochnik Highly sensitive chitosan-based optical fluorescent sensor for gaseous methylamine detection | 159 |
| M. Mucha, P. Mróz, D. Wrona Chitosan applied for gypsum modification | 166 |
| P. Owczarż, A. Ryl, Z. Modrzejewska, M. Dziubiński The influence of the addition of collagen on the rheological properties of chitosan chloride solution | 176 |
| V. Sankov, B. Shagdarova³, V. Varlamov³, R. Esipov, E. Svirshchevskaya¹ Large size DNA <i>in vitro</i> and <i>in vivo</i> delivery using chitosan transfection | 190 |
| M. Szcześniak, B. Grimling, J. Meler, B. Karolewicz The influence of selected polymers on the rheological properties of hydrogels with chitosan applied on the skin | 201 |
| P. Szymczyk, U. Filipkowska, T. Józwiak, M. Kuczajowska – Zadrożna | 207 |

Use of sawdust immobilised on chitosan for disposal of dyes from water solutions

J. Wolska

220

Chitosan and chitosan-polyethylenimine microspheres prepared by membrane emulsification and their application for drug delivery systems
