

Polish Chitin Society

**PROGRESS ON CHEMISTRY
AND APPLICATION
OF CHITIN AND ITS DERIVATIVES
(PCACD)**

Volume XXV

Łódź, Poland 2020

Editor-in-Chief: Małgorzata M. Jaworska

Faculty of Chemical and Process Engineering,
Warsaw University of Technology,
ul. Waryńskiego 1, 00-645 Warsaw, Poland
e-mail: malgorzata.jaworska@pw.edu.pl

International Editors:

C. M. Caramella, University of Pavia, Italy
H. Ehrlich, TU Bergakademie Freiberg, Germany
S. Hudson, North Carolina State University, USA
S. Ifuku, Tottori University, Japan
H. Pospieszny, Institute of Plant Protection, Poland
S. Rossi, University of Pavia, Italy
S. Senel, Faculty of Pharmacy, Hacettepe University, Turkey
V. Varlamov, Russian Academy of Science, Russia

CONTENT

<i>Review</i> A.V. Il'ina, B.Ts. Shagdarova, A.P. Lunkov, V.P. Varlamov	5
The formation of hydrogels based on chitosan and its water-soluble derivatives	
<i>Review</i> I. Latańska, B. Kolesińska, Z. Draczyński, W. Sujka	16
The use of chitin and chitosan in manufacturing dressing materials	
<i>Review</i> Sz. Mania, A. Banach, R. Tylingo	37
Review of current research on chitosan as a raw material in three-dimensional printing technology in biomedical applications	
<i>Review</i> A. Piotrowska-Kirschling, J. Brzeska	51
Review of chitosan nanomaterials for metal cation adsorption	
<i>Review</i> R. Szczepański, L. Gadomska, M. Michalak, P. Bakun, K. Pawlak, T. Goslinski, M. Ziegler-Borowska, B. Czarczynska-Goslinska	63
Chitosan-derivatives in combinations with selected porphyrinoids as novel hybrid materials for medicine and pharmacy	
M. Gnus	79
Influence of chitosan molecular weight and degree of deacetylation on membrane physicochemical and separation properties in ethanol dehydration by the vapour permeation process	
K. Gzyra-Jagiela, M. Owczarek, M. Szkopiecka, S. Jagodzińska, M. Dymel, P. Kudra-Miros, M. Kudra	94
Biodegradable nonwoven activated polyester with chitosan: potential application in cosmetic industry	
V.S. Kolodyaznaya, B.T. Evgenievna, E.I. Kiprushkina, I.A. Shestopalova, Y.V. Broyko, V.I. Filippov, D.A. Klementiev, V.A. Kostyuk	111
Dynamics of physiological and biochemical processes in avocado fruit treated with preparations during storage	

E.E. Kuprina, A.N. Yakkola, A.N. Manuylov, O. Kabysh, M.G. Zhirkova, A.V. Zhernyakova, M.A. Shmelkova, T.S. Vitalyevich, A. Stepanov	124
Development of biodegradable packaging films and edible coatings for food products based on composite materials	
M. Lakrat, S. Fadlaoui, M. Aaddouz, O. El Asri, M. Melhaoui, El Miloud Mejdoubi	132
Synthesis and characterization of composites based on hydroxyapatite nanoparticles and chitosan extracted from shells of the freshwater crab <i>Potamon algeriense</i>	
K. Malolepsza-Jarmolowska	143
Research of hydrophilic globules containing a lactic acid-chitosan complex	
S.V. Murashev, E.A. Gorlach, A.N. Chertov, E.V. Gorbunova, E.I. Kiprushkina	151
Development of colourimetric method for quality control of sausage products produced using chitinous food additives	
M. Muryeti, F. Eka Pratiwi, R. Tri Yuniastuti, E. Budi Mulyani	164
Termiticidal activity of chitosan on paper	
K. Nowacki, M. Galiński, I. Stępnik	174
Synthesis and characterization of chitosan/sodium alginate blend membrane for application in electrochemical capacitor	
K. Pieklarz, M. Tylman, Z. Modrzejewska	192
Preparation and characterization of new generation of chitosan hydrogels containing pyrimidine ribonucleotides	
A. Ryl, P. Owczarz	201
Rheological aspects of the flow of thermosensitive chitosan systems during injection application	
J. Wolska, J. Setkowicz, I.H. Maliszewska	210
Preparation and characterization of chitosan-agar films	
K. Woźniak, M. Jurak, A.E. Wiącek	227
Characterization of mixed Langmuir monolayers of cyclosporine A with the phospholipid DPPC at the chitosan subphase	
Guide for Manuscript Preparation	237
