## CONTENT

### *Review*

<b>N.R. Vokhidova, K.H. Ergashev, S.Sh. Rashidova</b>	<b>5</b>
Synthesis and application of chitosan hydroxyapatite: a review	
<b>V. Antonyuk, N.Manko, L. Panchak, S. Khomyak, R. Stoika</b>	<b>35</b>
Chitosan adduct with tranexamic acid and its haemostatic effect	
<b>D. Biniaś, W. Biniaś</b>	<b>43</b>
Preparation of nanocrystals and chitin microfibrils	
<b>A. Feliczak-Guzik, E. Musielak, I. Nowak</b>	<b>54</b>
Hierarchical zeolites modified with chitosan - synthesis and characterisation	
<b>M. Figiel-Kroczyńska, I. Ochmian, M. Krupa-Malkiewicz</b>	<b>67</b>
Effect of chitosan-based spraying on the quality of highbush blueberries ( <i>Sunrise cultivar</i> )	
<b>U. Filipkowska, T. Józwiak, M. Filipkowska</b>	<b>79</b>
Use of chitosan adsorbents for dye removal in the air-lift reactor	
<b>M. Gnus</b>	<b>92</b>
Influence of initial state of chitosan membranes on their separation properties in pervaporative dehydration	
<b>B. Grimling</b>	<b>106</b>
Influence of selected polymers on pharmaceutical properties of mucosal systems containing acyclovir	
<b>T. Józwiak, U. Filipkowska, M. Filipkowska</b>	<b>116</b>
Effect of ionic and covalent Crosslinking of hydrogel chitosan beads on the adsorption efficiency of basic violet 10 and basic green 4 dyes from aqueous solutions	
<b>V. Korniienko, Ye. Husak, A. Yanovska, S. Altundal, K. Diedkova, Ye. Samokhin, Y. Varava, V. Holubnycha, R. Viter, M. Pogorielov</b>	<b>135</b>
Biological behaviour of chitosan electrospun nanofibrous membranes after different neutralisation methods	

<b>M. Krupa-Malkiewicz, A. Jurkiewicz, I. Ochmian, M. Figiel-Kroczyńska</b>	<b>154</b>
Effect of chitosan and meta-topolin in micropropagation of <i>Vaccinium corymbosum</i>	
<b>T. Machalowski, M. Kozłowski, A. Kołodziejczak-Radzimska, J. Jakubowicz, T. Jesionowski</b>	<b>162</b>
Chitin nanofibres as reinforcement for hydroxyapatite-based composite preparation	
<b>K. Malolepsza-Jarmołowska</b>	<b>175</b>
Physicochemical properties of gels with chitosan that protect the oesophageal mucosa	
<b>K. Malolepsza-Jarmołowska</b>	<b>183</b>
Influence of carboxymethylcellulose sodium salt on the protective properties of gels with chitosan for the oesophageal mucosa	
<b>I. Ochmian, S. Lachowicz, M. Krupa-Malkiewicz</b>	<b>194</b>
The effect of different molecular weights of chitosan on the yield, quality, and health-promoting properties of strawberries	
<b>R. Segaran, R. Omar, Y. Kusumastuti, R. Harun, S.M.M. Kamal</b>	<b>204</b>
Combined microwave-assisted subcritical liquid extraction of chitosan from crab shell waste	
<b>J. Urbaniak, B. Kołodziejska, A. Kafłak</b>	<b>217</b>
Synthesis of new chitosan-carbonate hydroxyapatite composites with potential application in bone tissue engineering – physicochemical analysis
