Polish Chitin Society

PROGRESS ON CHEMISTRY AND APPLICATION OF CHITIN AND ITS DERIVATIVES
(PCACD)

Volume XXX

Toruń, Poland 2025

Editor-in-Chief: **Magdalena Gierszewska**
Faculty of Chemistry,
Nicolaus Copernicus University in Toruń,
ul. Gagarina 7, 87-100 Toruń, Poland
e-mail: mgd@umk.pl

International Editors:
H. Ehrlich, TU Bergakademie Freiberg, Germany
S. Hudson, North Carolina State University, USA
S. Ifuku, Tottori University, Japan
L. Marin, Petru Poni Institute of Macromolecular Chemistry, Romania
W. Pasanphan, Kasetsart University, Thailand
S. Senel, Faculty of Pharmacy, Hacetteppe University, Turkey
R. Wach, Lodz University of Technology, Poland

CONTENT

Review
Daria Bożejewicz **7**
Possibilities and limitations of chitosan-based adsorbents used to remove organic and inorganic contaminants from aqueous solutions

Review
Aneta Ostróżka-Cieślik, Patrycja Kornet, Wiktoria Farbaniec, Sławomir Wilczyński **40**
Potential of chitosan-based hydrogels with hormones and growth factors in chronic wound therapy – the possibilities of preparing a prescription drug based on a literature review

Review
Sorur Yazdanpanah, Silvia Romano, Fabrizia Sepe, Umberto Galderisi, Gianfranco Peluso, Raffaele Conte **54**
Nanosized chitosan systems for regenerative medicine

Review
Noira Rakhimovna Vokhidova, Yiying Jiang, Hongguo Xie, Heng Yin **77**
Properties and emerging applications of chitosan nanoparticles: a brief review

Dorota Biniaś **97**
Forming of polypropylene film with the addition of dibutyrylchitin and stearic acid

Piotr Drożdżyński **109**
Endophytic biosurfactants–chitosan biopreparation: an innovative formulation for enhancing crop plant growth

Jesith K, Megha PU, Abhitha PA, Muhammed Nayeem M **117**
Chitosan–capped silver nanoparticles against opportunistic and human pathogens: a promising weapon in the fight against infections

Oksana Kalinkevich, Vadym Chivanov, Anatoly Sklyar, Aleksei Kalinkevich **130**
Characterisation of chitosan and chitosan-based materials by temperature programmed desorption mass spectrometry

Marcelina Krupa-Małkiewicz, Ireneusz Ochmian **143**

Application of natural biostimulants in cactus *in vitro* cultures: evaluating the effectiveness of chitosan and nanosilicon

Marcelina Krupa-Małkiewicz, Ireneusz Ochmian **154**

Evaluation of the impact of molecular weight and concentration of chitosan on the quality and postharvest longevity of raspberry fruits

Marcelina Krupa-Małkiewicz, Ireneusz Ochmian **169**

Optimisation of rooting and growth of grapevine cuttings through chitosan application and substrate selection

Mamasoliyev Ulugbek Makhammatovich, Noira Rahimovna Vokhidova, Zuhra Yuldashevna Akhmedova, Iskandarov Tulkin Iskandarovich, Sayyora Sharafovna Rashidova **184**

On the synthesis of *N*-succinylchitosan *Bombyx mori* complexes with cobalt(II) ions and their insecticidal properties against *Anacanthotermes turkestanicus* termites

Katarzyna Małolepsza-Jarmołowska, Hanna Bazan **205**

The effect of calcium alginate on the neutralising properties of chitosan gels protecting the oesophageal mucosa

Katarzyna Małolepsza-Jarmołowska, Hanna Bazan **214**

The influence of hydrophilising substances on the physicochemical properties of chitosan gels with a protective effect on the oesophageal mucosa

Olga Marchut-Mikolajczyk, Angelika Kubiak **223**

Endophytic fungi from *Chelidonium majus* L. as a source of chitosanolytic enzymes: isolation, identification, and enzymatic activity

Daniela Moncayo-Chaves, Linda Bucheli-Burgos, Juan Pinillos, Yhors Ciro, Constain Hugo Salamanca, José Fernando Oñate-Garzón **232**

Evaluation of the antimicrobial activity of nanoparticles based on chitosan crosslinked with phytic acid and loaded with daptomycin against sensitive *Staphylococcus aureus* strains

Aneta Ostróżka-Cieślik, Marcin Przybyła, Barbara Dolińska **243**

Preformulation studies of thermosensitive dermatological hydrogels containing insulin

Katarzyna Pieklarz, Zofia Modrzejewska **254**

Formation mechanism of thermosensitive chitosan hydrogels containing uridine 5'-monophosphate disodium salt

Subbaiyan Pushparani, Sajeev Sradha, George Rani Anju, Vadakkenchery Salimudheen Hansiya, Palanisamy Maheswari Uma, Jeganathan Aarthi, Byju Anju, Natesan Geetha **266**

Larvicidal activity of different molecular weights chitosan-plant extract complex against *Anopheles stephensi*

Barbara M. Stencel, Małgorzata Zień, Małgorzata M. Jaworska **283**

The energy of activation of intracellular and extracellular chitin deacetylase

Katarzyna Struszczyk-Świta **290**

Waste fungal biomass from biotech industry as a source of chitosan

Agnieszka E. Wiącek, Agata Ładniak, Małgorzata Jurak **300**

Physicochemical characteristics of titanium dioxide/chitosan/hyaluronic acid biomaterial in relation to antibacteriality and biocompatibility

Anita Wójcik, Natalia Wacławik, Marek Piątkowski **316**

Microwave-assisted synthesis of carbon-doped chitosan hydrogels
